

CLAUDE AI FOR SALES TEAMS

Give Your BDRs 2 Extra Hours Every Day

How Claude AI Turns a 40-Person Team Into Your Biggest
Revenue Lever

Prepared for VP of Business Development
IT Research & Advisory Services

• Powered by Claude AI

24h

Where Does the Day Actually Go?

- Prospect Research 2-3 hrs
- Email Writing & Personalization 1.5-2 hrs
- Cold Calling & Voicemails 2-3 hrs
- LinkedIn Outreach 30-45 min
- CRM / Activity Logging 45-60 min
- Call Prep & Meeting Prep 30-45 min

~30% of a BDR's day is actual selling. The rest is research, writing, and admin.

44-50 dials/day 40-80 emails/day 30-45 min research/prospect 34 touchpoints to convert

The Hidden Cost of "How We've Always Done It"

01

Speed to lead suffers

30–45 minutes of research per prospect means fewer accounts touched daily. Current output: only 44–50 dials and 40–80 emails per day.

02

Generic outreach falls flat

Templated emails get less than 1% response rate. Your BDRs are sending hundreds of emails that almost nobody reads.

03

Inconsistent quality

Prep quality varies by rep experience. Newer BDRs take even longer and produce weaker outreach.

\$528,000/year

in time spent on tasks AI can accelerate -- across your 40 BDRs

\$40/hr fully loaded cost x 330 hrs reclaimed per BDR x 40 BDRs

What If Every BDR Had a **Senior Research Analyst** Sitting Next to Them?

Built by Anthropic for knowledge work

Purpose-built for research, writing, and analysis -- exactly what BDRs do all day.

Augments your BDRs, doesn't replace them

Handles research, drafting, and prep so reps can focus on live conversations.

No technical setup required

Simple chat interface, right alongside Salesforce and SalesLoft.

Reads complex documents, writes naturally

10-K filings, earnings calls, 50-page reports -- summarized in seconds, in a human tone.

CLAUDE CHAT INTERFACE

Research Acme Corp for a cold outreach to their VP of IT Infrastructure.

Acme Corp -- Key Findings:

- ◆ **Digital transformation** initiative announced in Q3 earnings (\$40M investment)
- ◆ **Pain point:** Legacy infrastructure migration to hybrid cloud
- ◆ **Opening line:** "Following Acme's \$40M digital infrastructure investment..." |

Before Claude vs. After Claude

TASK	BEFORE	WITH CLAUDE	TIME SAVED
Account Research	30–45 min	3–5 min	87%
Email Personalization	5–10 min	2–3 min	60%
Call Prep & Talking Points	30–45 min	10–15 min	60%
Meeting Notes & Follow-Up	20–30 min	5–10 min	63%
Objection Handling Scripts	20–30 min	5–10 min	63%

1.5–2.5 hrs freed per rep, per day = 330 additional productive hours per year, per BDR

8 Ways BDRs Use Claude Every Day

01 Account Research Summarize 10-K filings, earnings calls, and news into a one-page briefing in under 5 minutes	02 Personalized Emails Draft multi-touch sequences tailored to each prospect's industry, role, and company priorities	03 Call Prep Sheets Generate talking points, potential objections, and discovery questions before every call	04 Objection Handling Build custom response scripts for common pushbacks: budget, timing, existing vendor
05 Qualification Frameworks Apply BANT or MEDDIC consistently with AI-generated checklists tailored to each prospect	06 Meeting Prep & Follow-Up Summarize pre-meeting research and draft professional follow-up emails in minutes	07 Competitive Intelligence Quick-turn analysis of competitor positioning, strengths, and weaknesses for specific deals	08 Industry & Persona Research Understand vertical pain points and buyer personas for IT advisory prospects

Personalization Isn't Optional Anymore

15-30x

improvement in email effectiveness

- **10-15x more likely** to generate a response than generic templates
- Company-specific personalization **triples** response rates
- AI-assisted outreach drives **40-70% faster** revenue growth

The Numbers Speak for Themselves

ANNUAL COST

\$12,000

40 BDRs x \$20-25/month each

TIME VALUE SAVED

\$528,000

330 hrs x \$40/hr x 40 BDRs per year

RETURN ON INVESTMENT

4,300%

\$44 returned for every \$1 spent

PAYBACK PERIOD

~1 week

Less than the cost of a single intern

From Raw Data to Ready-to-Send in 3 Minutes

Scenario: BDR is prospecting a Fortune 500 company for IT advisory services.

1 Paste

30 seconds

BDR types into Claude: "Research Acme Corp for a cold outreach to their VP of IT Infrastructure. Focus on recent technology investments and potential advisory needs."

2 Generate

60 seconds

- Claude returns:
- ▶ Key business priorities from latest earnings
 - ▶ Recent tech investments & digital initiatives
 - ▶ 3 relevant pain points for IT advisory
 - ▶ Personalized opening line
 - ▶ 3 tailored discovery questions

3 Review & Send

90 seconds

BDR reviews the output, tweaks one sentence for personal touch, and drops the email into SalesLoft. Done.

3 minutes Previously: ~~40+ minutes~~

Up and Running in Days, Not Months

No six-month IT project. No API setup. No contract. BDRs sign in, ask questions, get results.

Why **Claude**, Specifically?

01

Reads long documents natively

10-K filings, earnings transcripts, 100-page research reports. Other AI tools hit length limits and lose context. Claude handles them in full.

02

Sounds human, not robotic

Claude's writing tone is natural and professional. Prospects can't tell it was AI-assisted. No awkward "as an AI" language.

03

Built for knowledge work

Designed specifically for research, analysis, and writing -- exactly what BDRs do all day. Not a general-purpose chatbot.

04

Safe and trustworthy

Anthropic is the industry leader in AI safety. Your team's data is handled responsibly. No training on your inputs.

NEXT STEPS

Let's Start With a 2-Week Pilot

- ◆ **What we need:** 5-10 BDR volunteers and 15 minutes for a kickoff session
- ◆ **Investment:** Less than \$250/month for the pilot group
- ◆ **What you get:** Measurable results within 2 weeks -- response rates, time saved, meetings booked
- ◆ **No risk:** Cancel anytime. No contract. No integration. No IT involvement.

Let's pick a start date.
